

Test report
for the determination of the heating capacity
of hot surface for rooms

heating ceiling

Type: Pannello Radiante in Cartongesso
Soffitto / parete: PRC 5.0

closed heating ceiling,
PEx-tubes (8 x 1mm) integrated in plasterboard panel
distance between the tubes: 50mm

proterclima s.r.l.
I – 70024 Gravina in Puglia (BA)

Test report

No.: DF10 H26.2856

heating capacity: 72 W/m² (Δt : 15K)

(referring to the active area: 7,20m²)

This test report consists of 6 pages and it may be reproduced only in its integral form.
The results of the test refer only to the test samples.

The HVAC Institute, Lehrstuhl für Heiz- und Raumlufttechnik (LHR), is from DAR accredited according to ISO/IEC 17025 and is from DINCERTCO recognised as an independent test laboratory.
Further on the Institute is also an accredited inspection body according to EN 45004.

Test report no.: DF10 H26.2856

test report A
for the determination of the heating capacity of a heating surface close to EN 14037

- Initial testing -

1 Test laboratory

Prüfstelle Heizung - Lüftung - Klimatechnik Stuttgart
Pfaffenwaldring 6A
70569 Stuttgart

2 Applicant

proterclima s.r.l.
Via B. Croce, 14
I - 70024 Gravina in Puglia (BA)

3 Manufacturer

the applicant

4 Data of the tested ceiling surface

(drawing and photo: page 3,6)

type: Pannello Radiante in Cartongesso
soffitto/parete: PRC 5.0

gypsum panels, 15mm, with insulation (25mm).

active ceiling area:

7,20 m²

total ceiling area:

7,20 m²

PE-tubes (8mm x 1mm), circle flow, 3 panels

distance between tubes: 50mm

date of entry of test samples: 02.01.2008

date of entry of technical documents: -

sampling: delivery by applicant

date of installation: 21.01.2008

connection: the 6 elements (3 panels) are connected in parallel serie,
two elements (1 panel) in circuit.

surface coating: without coating

5 correction due to nominal pressure

radiation ratio: 0,7 exponent for correction: 0,5

6 test results The results of the test refer only to the test samples

Characteristic equation: $\dot{q} = C \cdot \Delta t^n$

exponent n = 1,111 constant C = 3,561

nominal capacity at $\Delta t=15K$: 72 W/m² referring to the active area

test results

1 Measured values for the determination of the capacity

test no.:		1	2	3
date:		21. Jan	21. Jan	21. Jan
air pressure	kPa	97,11	97,20	97,39
water mass flow rate	kg/h	299,07	299,32	299,70
reference temperature (globe: 0,75m)	°C	19,80	20,05	20,36
water inlet temperature	°C	45,84	40,87	35,39
water outlet temperature	°C	43,25	38,85	33,98
temperature difference	K	2,59	2,02	1,41

2 Additional values

mean insufficient temperature	K	24,74	19,81	14,32
measured cooling capacity	W	900	700	490
corrected capacity, 1013mbar	W	906	705	493
cooling capacity per m ² active area	W/m ²	126	98	69

3 Control temperatures

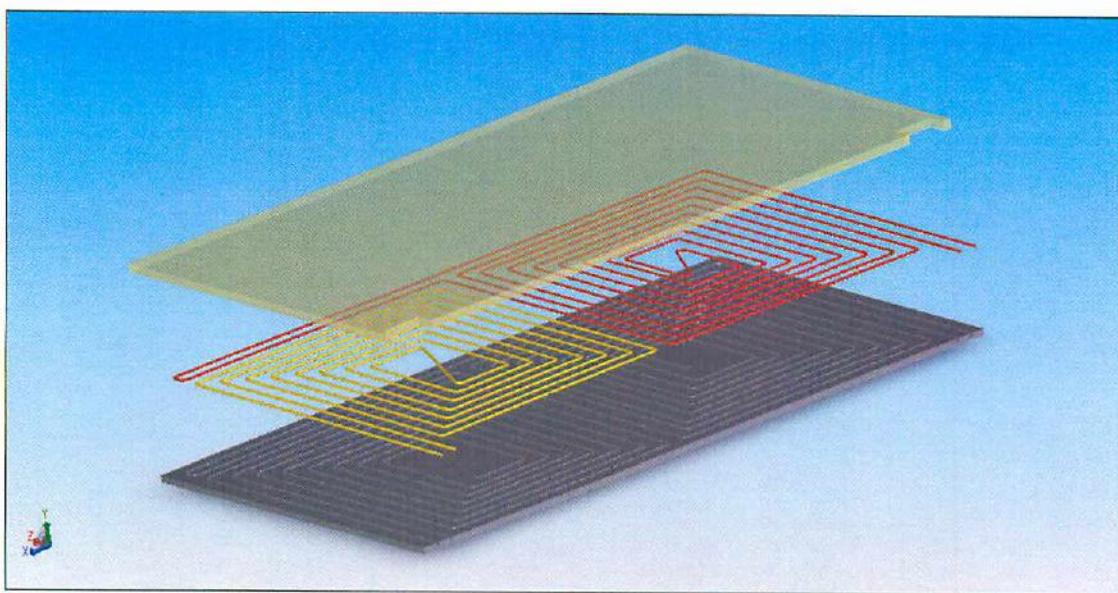

mean floor temperature	°C	17,5	18,3	19,0
mean wall temperature	A:	°C	17,5	18,3
	B:	°C	17,6	18,2
	C:	°C	17,6	18,2
	D:	°C	17,5	18,3
mean ceiling temperature	°C	17,5	18,3	19,0

4 air temperatures in test room

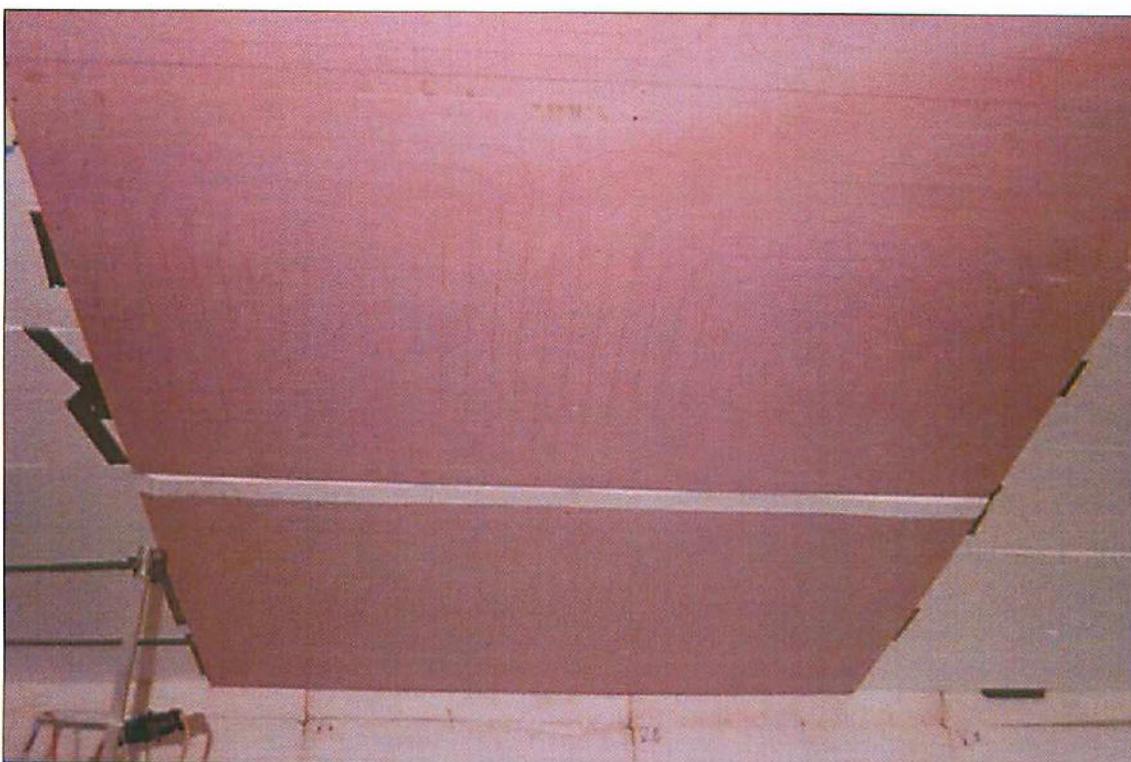

air temperature	Höhe: 0,05 m	°C	18,5	18,9	19,5
height over floor level	0,75 m	°C	19,1	19,4	19,9
	1,70 m	°C	19,4	19,7	20,1
temperature above the ceiling	2,70 m	°C	32,6	30,8	28,2

5 surface temperatures

calculated surface temperature	°C	37,8	34,0	30,2
--------------------------------	----	------	------	------

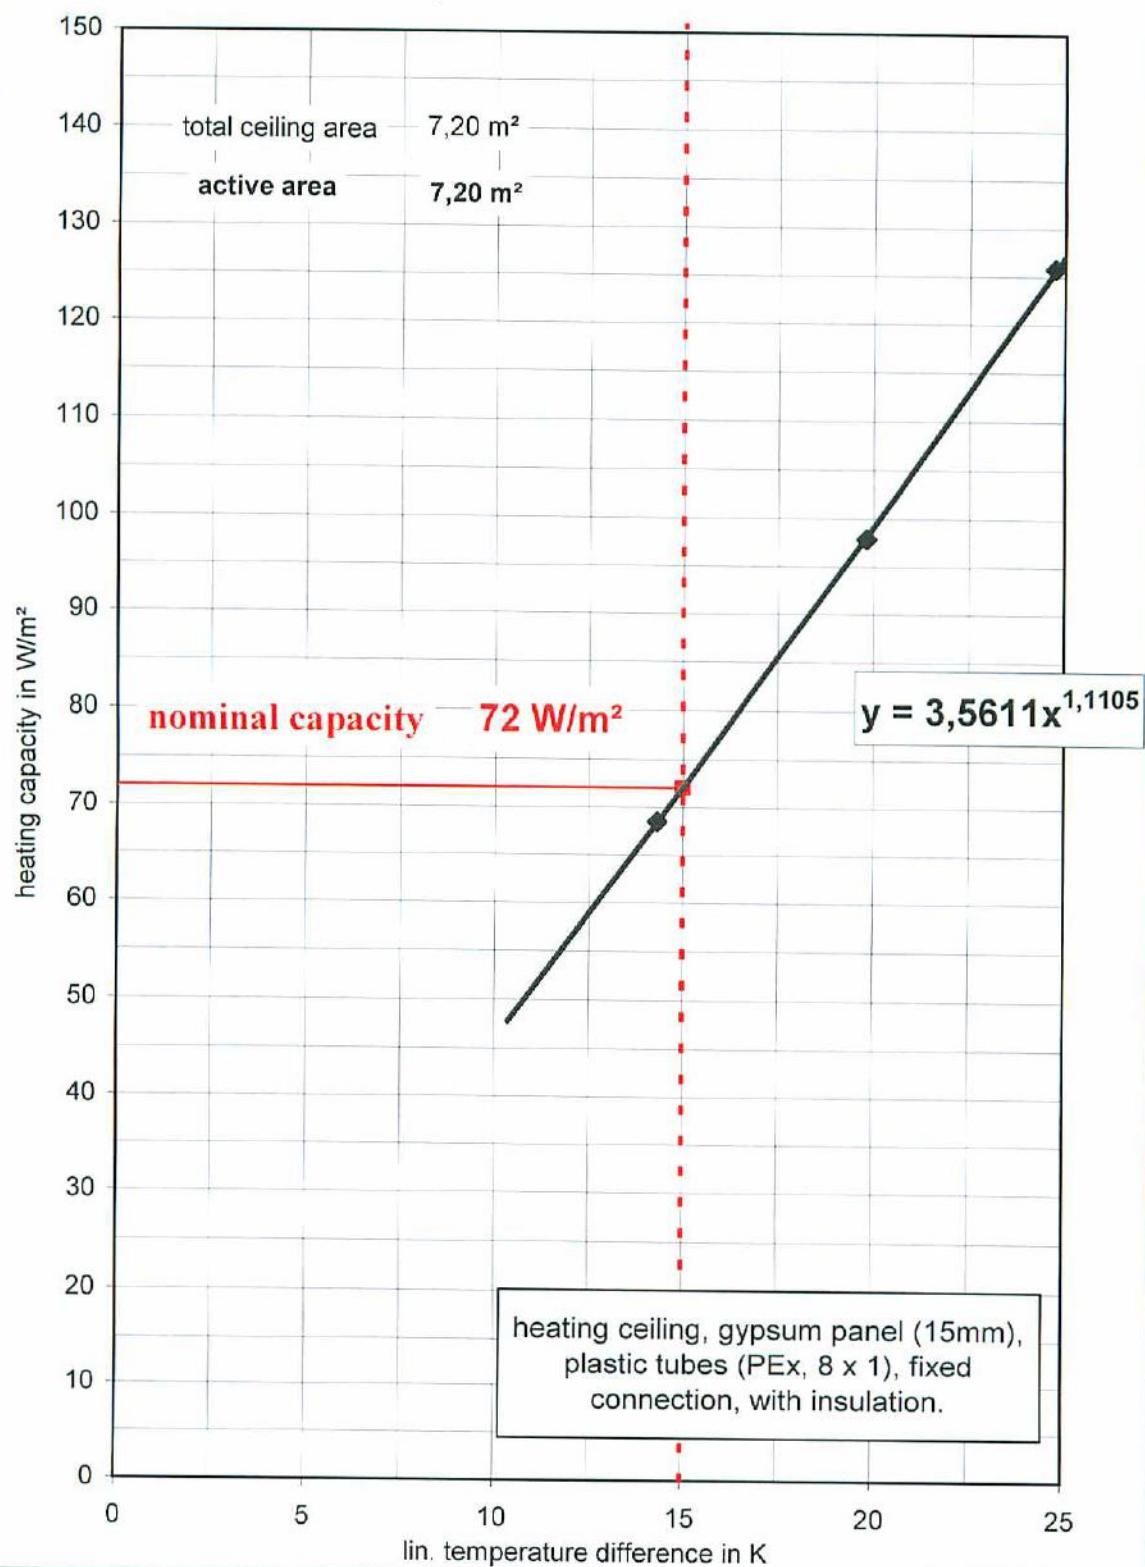

heating surface element 1200mm x 2000mm, distance between pipes: 50mm
proterclima s.r.l., PE-Xc - pipe 8mm x 1mm, plasterboard panel: 15mm
Pipes integrated in panels, with insulation above: 25mm

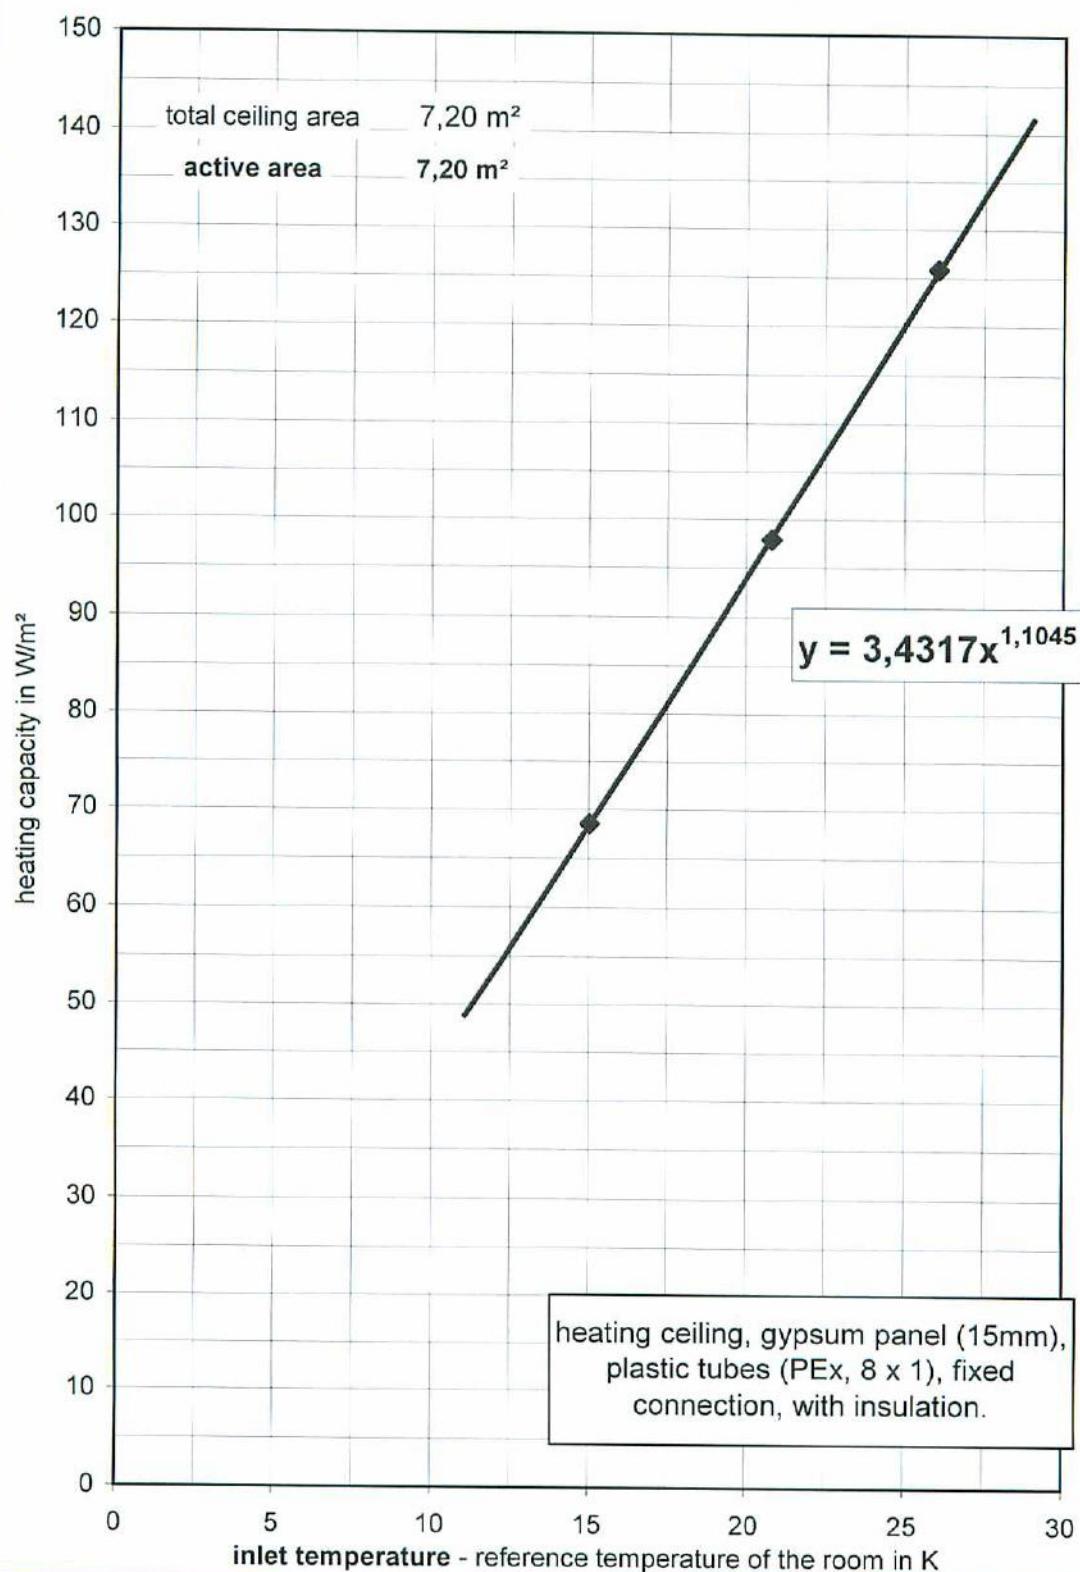

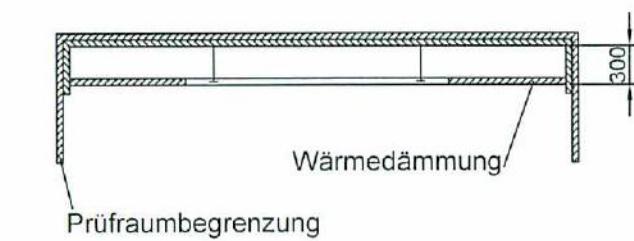

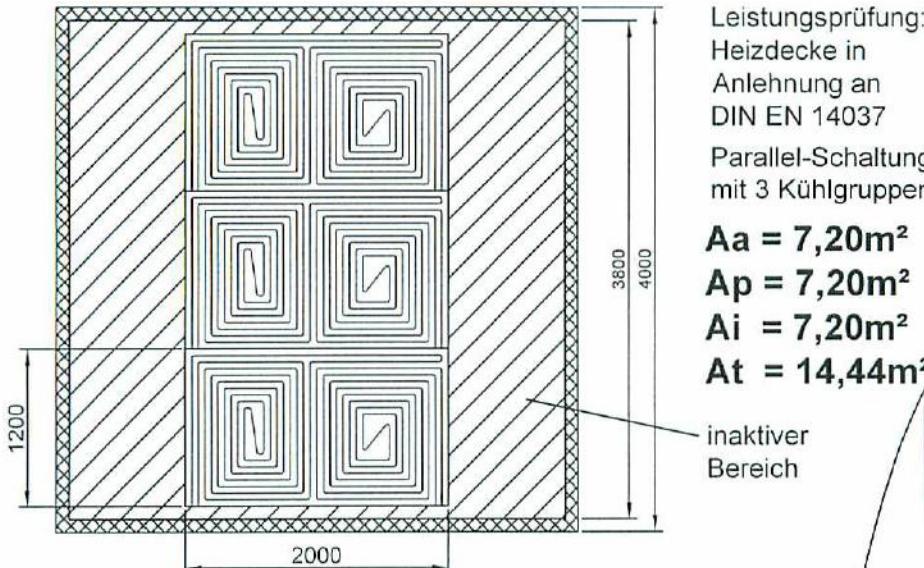

Installation in the test booth closed to EN 14037,
designed as closed heating surface

Typ: Pannello Radiante in Cartongesso
soffitto/parete: PRC 5.0

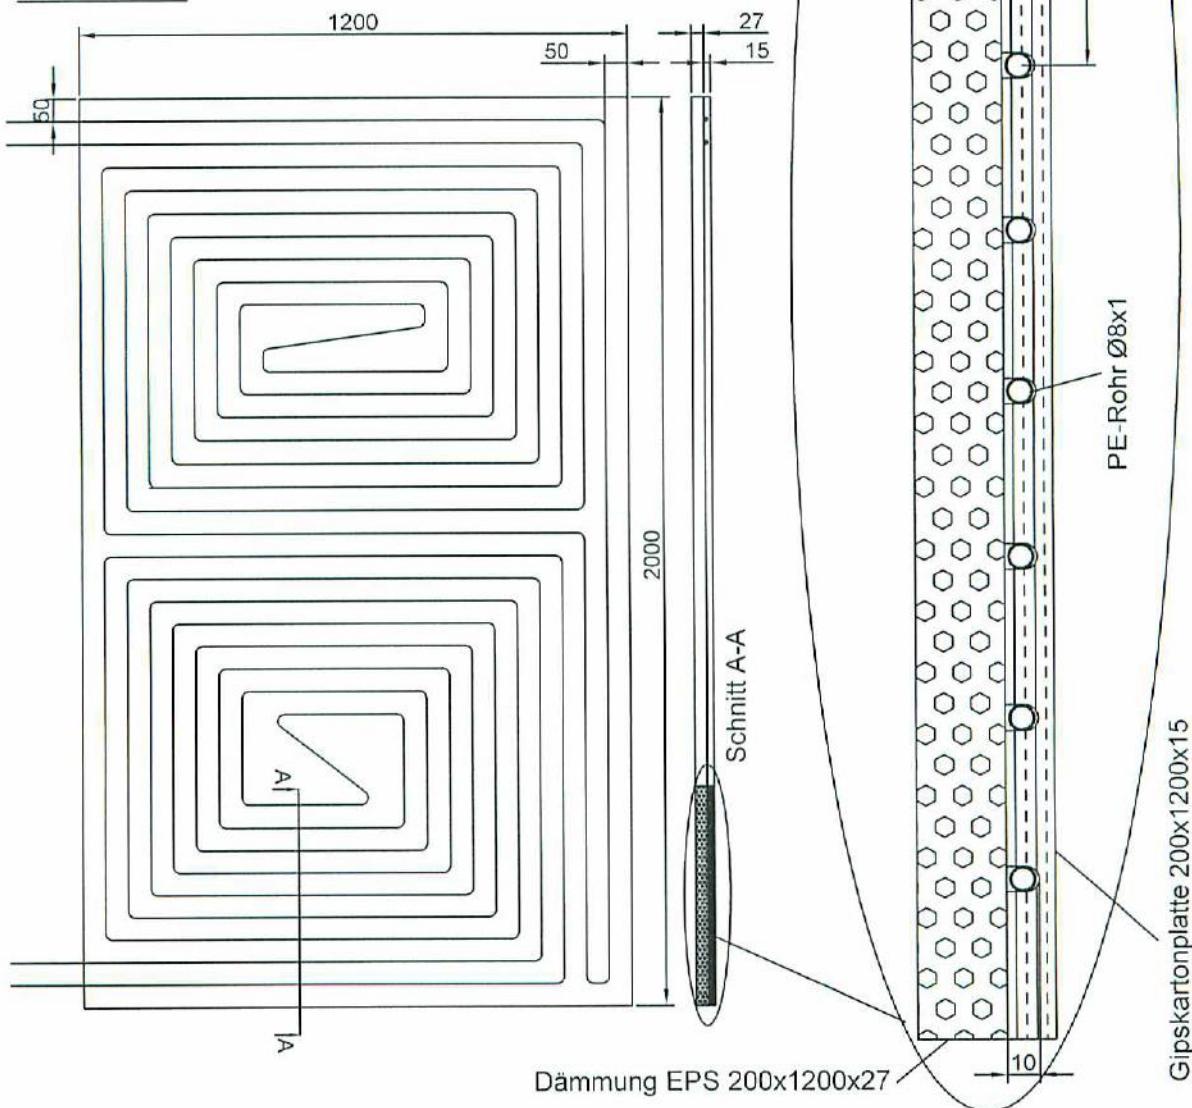

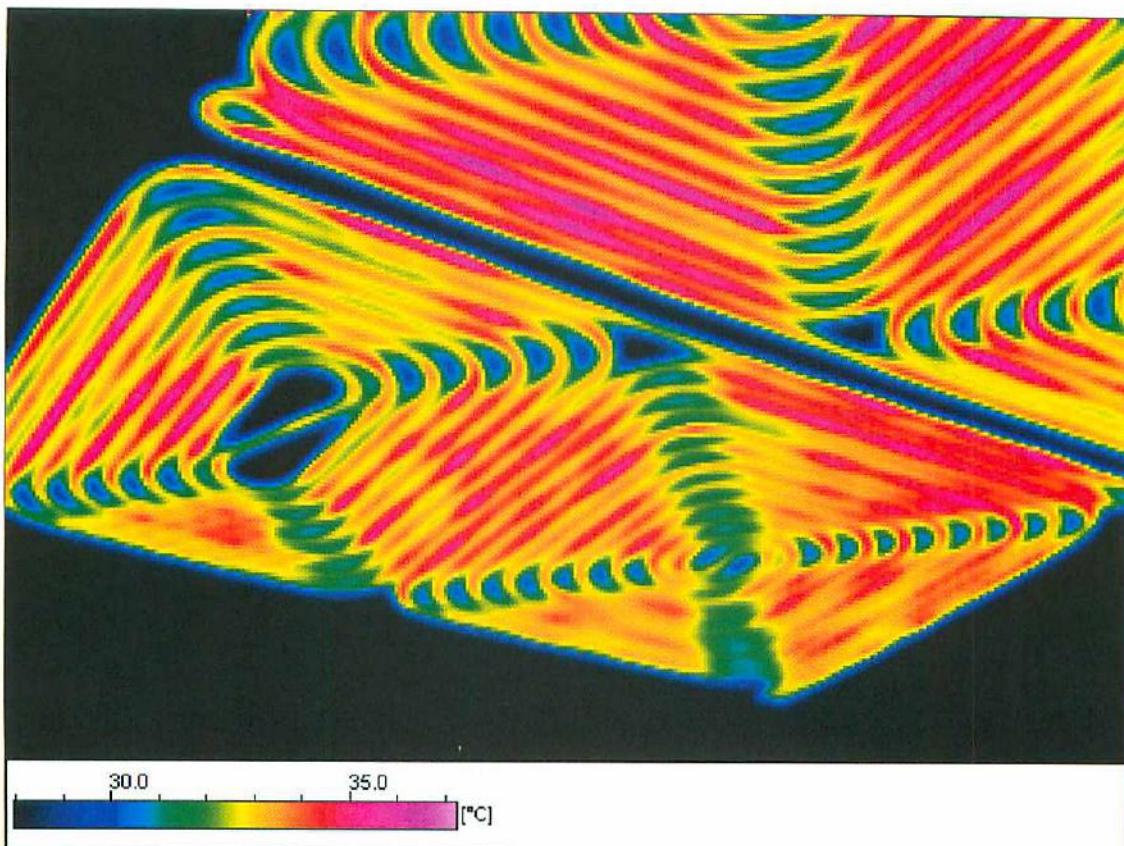

Typ: Pannello Radiante in Cartongesso
soffitto/parete: PRC 5.0

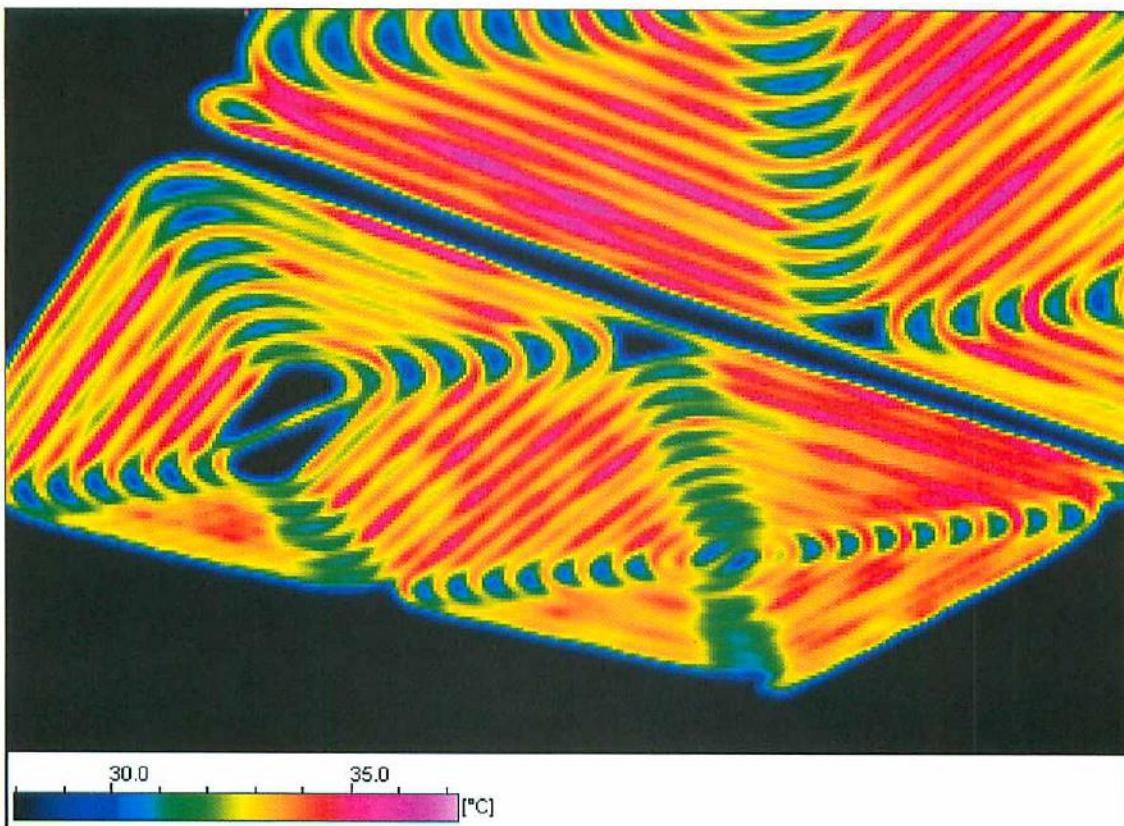

Heizmodul

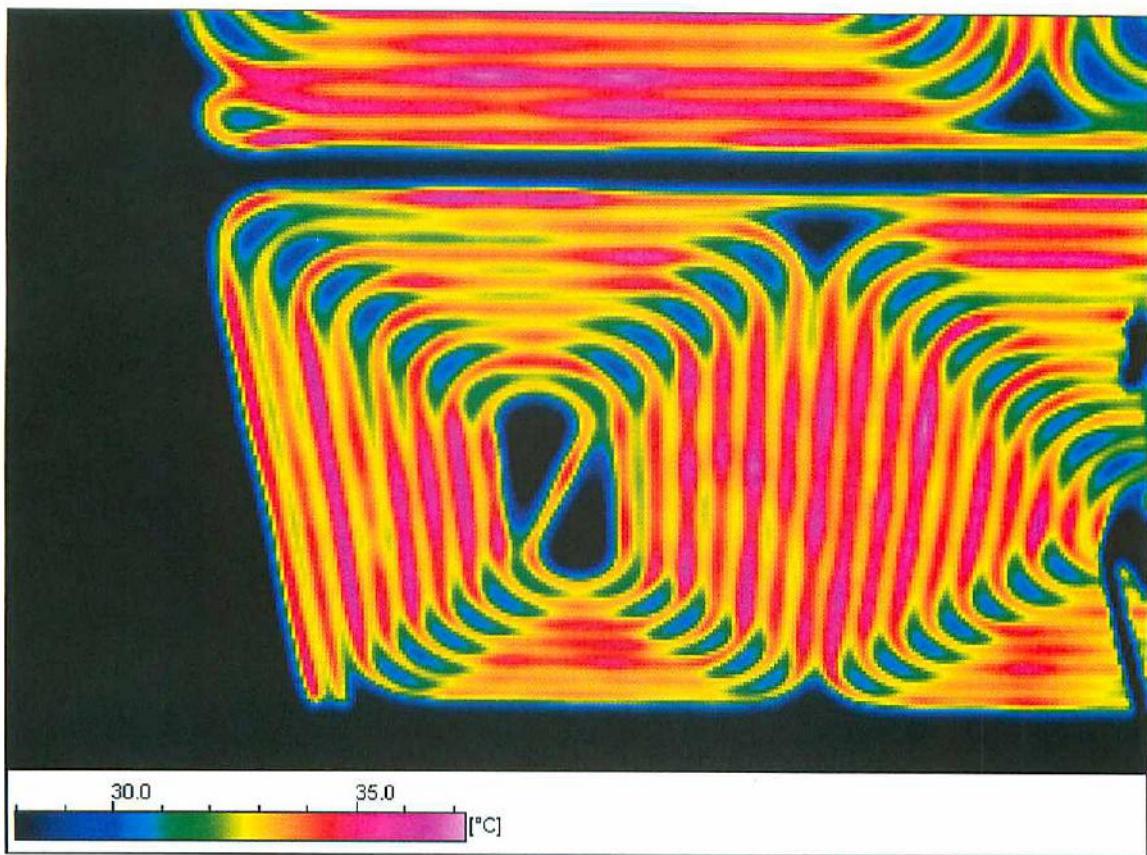

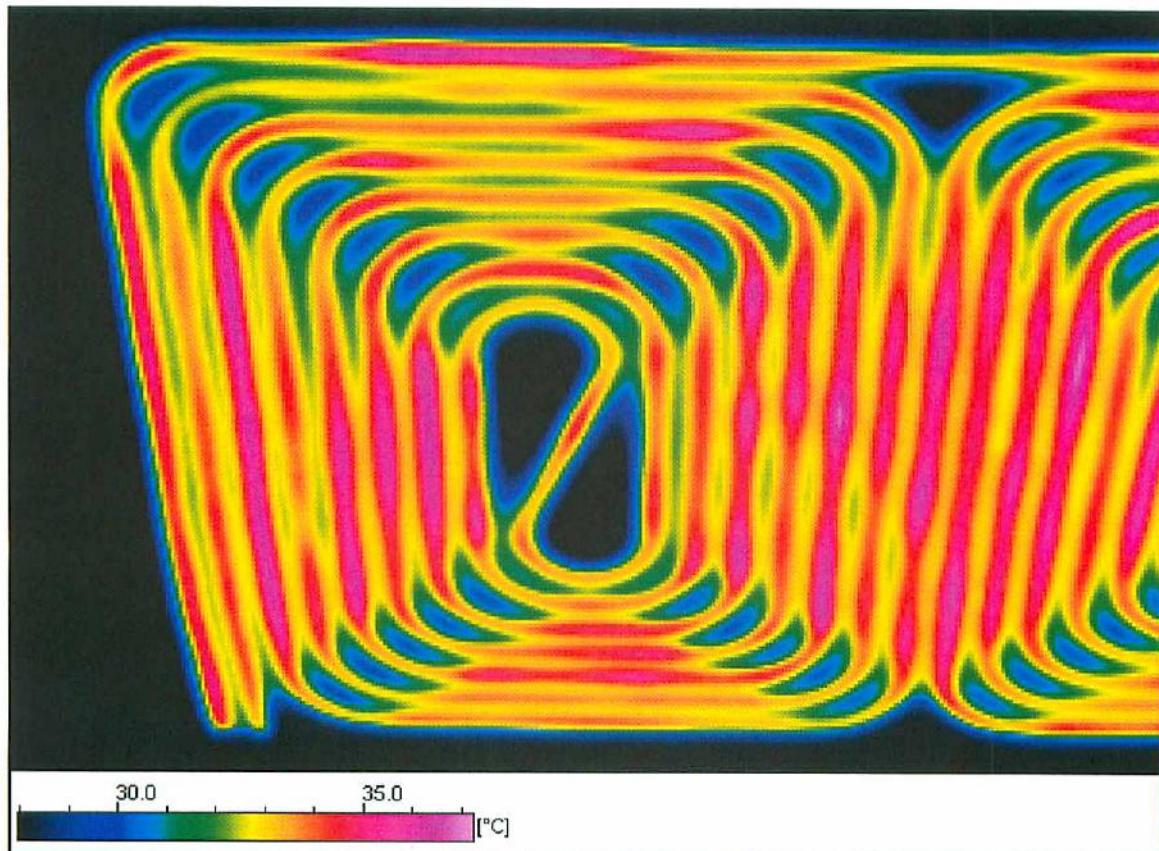

measuring point 1: mean water temperature: 44,5°C, room temperature: 19,8°C,
left side of ceiling

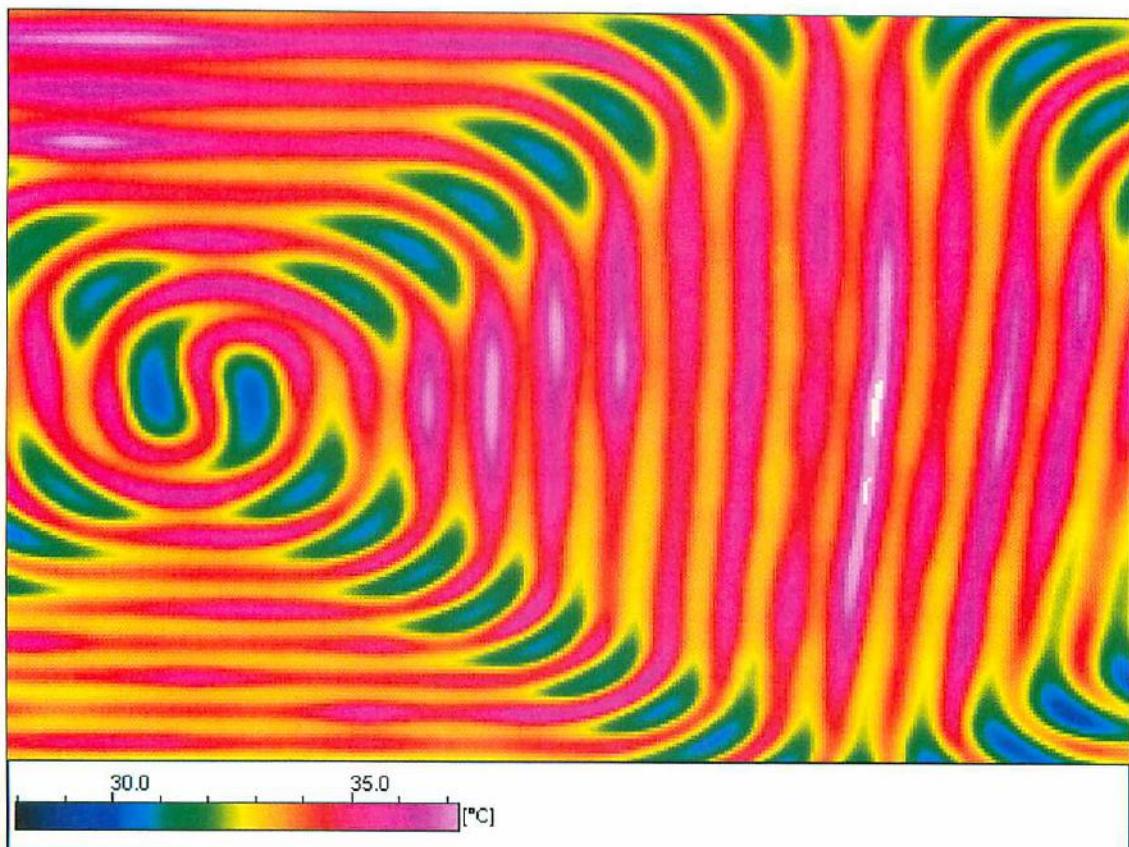

measuring point 1: right side of ceiling

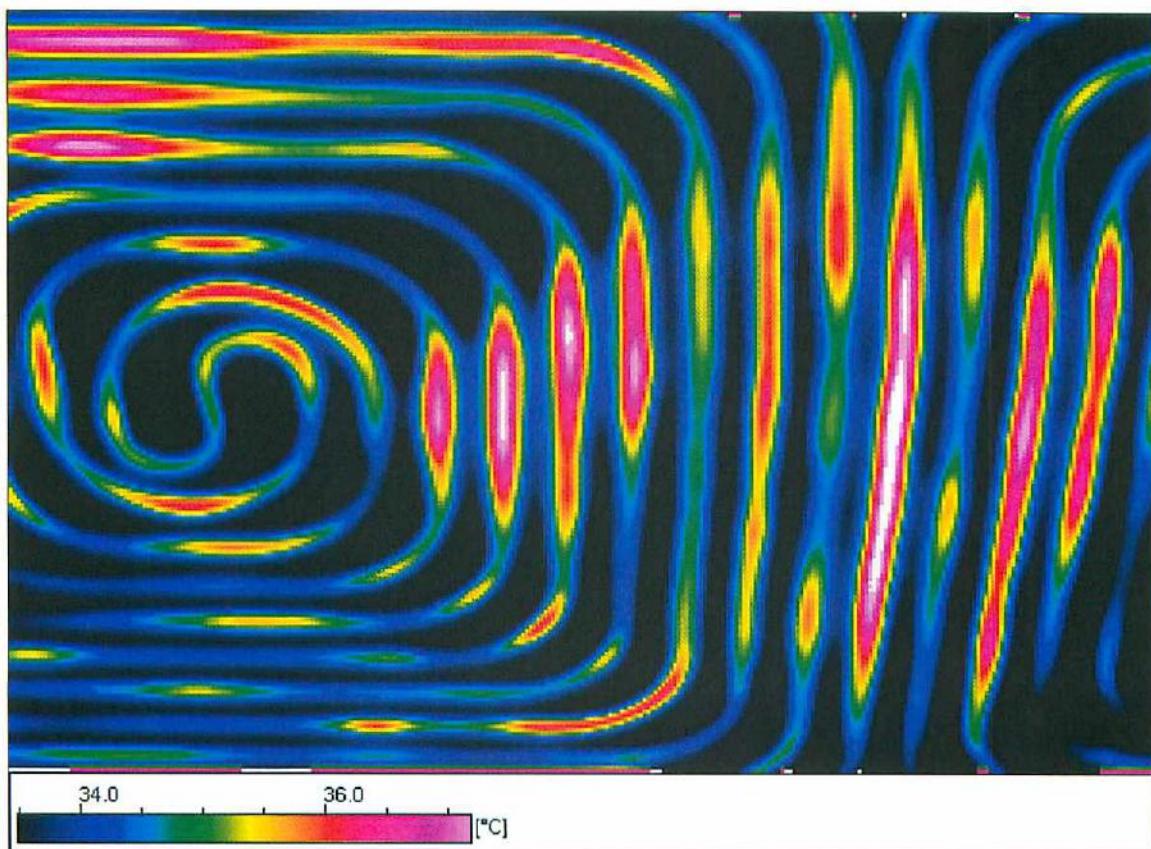

measuring point 1: mean water temperature: 44,5°C, room temperature: 19,8°C

as above, some more other panels

measuring point 1: mean water temperature: 44,5°C, room temperature: 19,8°C

as above, more details in temperatures
